  - Promote and become a partner
- 

## IMAGO BENEFITS

- General contractor of landscaping, architecture, engineering and 3D drawings
- Interior layout and design of installations
- Project management from A to Z
- Rapid Return on Investment

## SUSTAINABLE DEVELOPMENT

Our manufactured products have a low environmental impact. The fate of the planet is one of our main concerns; we recycle by-products and breathe new life into used materials. In fact, using the excess canvas and wood, we create new products destined for the great outdoors. Furthermore, when building our dwellings, we always proceed responsibly by, among other methods, preserving trees found on our commercial land.

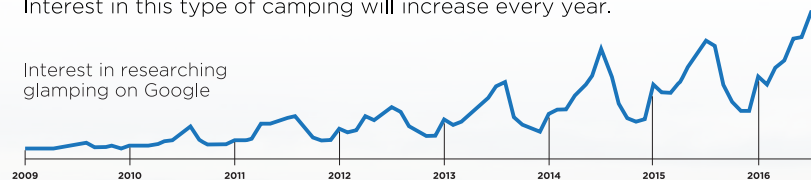

---

## THE GLAMPING

Offering travelers the means for experiencing only the positive aspects of camping, the new trend, glamping, combines the experience of the wild with more glamour and comfort. This is a way of offering travelers the means for experiencing only the positive aspects of camping. Indeed, it is a way to experience the great outdoors without sacrificing luxury. Imago products, like the modern yurts, are a perfect example of "glamping," combining solidity and comfort. Such unusual accommodations are no longer simply rooms, but experiences in and of themselves. Interest in this type of camping will increase every year.

# YURTS

## HIGH-QUALITY PRODUCT

The durability of our accommodations is very important to us, which is why we use high-quality products for both structure and hardware. With our insulation, your yurt will endure the most extreme temperatures.

## DESCRIPTION :

- ▶ Wall of wooden lattice covered with canvases.
- ▶ Includes two flexible windows and a dome.
- ▶ Wooden door with full size window.
- ▶ Additional options on request.

## THE YURTS

Habitation originating in Central Asia, the modern yurt of Imago Structures is manufactured according to the requirements of the northern climate. Built with a wooden structure it is covered with canvases and windows which gives it an extraordinary luminosity. It is possible to make a version 4 seasons and isolate it. Its dome allows you to observe the stars. The yurt is a comfortable dwelling. Ideal for the medium of the operators of open air and for the private owner of land in resort.

## INTERIOR DESIGN

Let your imagination and creativity run wild. Whether you wish to turn your yurt into a chalet, a business establishment or another kind of property, it can be designed exactly according to your needs. With the possibility of adding a mezzanine and divisions, there are an endless number of interior design options available.

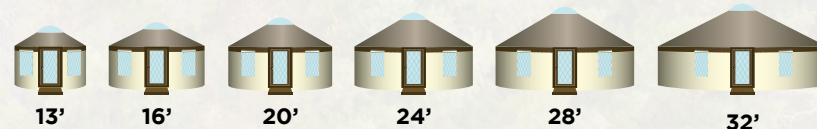

## INSTALLATION

## INSTALLED BY PROFESSIONALS

Yurt delivery and installation services are provided by our meticulous, quick and dynamic team of professionals. Do you love DIY projects? If so, you can provide the labour to help our head installer and lower costs. You can also build the platform yourself with the plans provided free of cost with your purchase of a yurt.

## INSTALLATION

### OUR PROSPECTOR TENTS

Our tents are designed to provide an optimal outdoor experience. All the different models include a spacious and comfortable interior. They are easy to install, light and compact for transportation.

Our Prospector tents are designed like the original tents of this kind, for quick disassembly and assembly. Thanks to the eyelets installed in strategic areas, the tent can be assembled with no interior frame by attaching it to trees or other structures. It can also be mounted on an aluminium structure that is assembled without any tools.

## OPTIONS

Additions can be made and other options are available to make your Prospector tent perfectly suited to your taste. Windows and doors with mosquito nets, double roofs, canvas floors, aluminium frames and chimney outlets can be purchased so the tent meets all your needs.

## TENT STOVE

- ▶ Wood-burning stove designed for Prospector tents.
- ▶ Used by Canadian Rangers.
- ▶ Very solid cold-rolled steel.
- ▶ 4" chimney that fits in the stove for transportation.
- ▶ Folding legs.

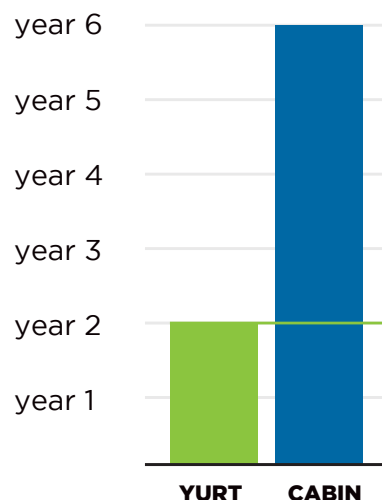

# ARE YOU AN INVESTOR?
